

Mark Anton Airport

Aviation Moves Tennessee

Tennessee's aviation system is made up of 78 public-use airports, which serve aviation needs from commercial passenger jet operations to single-engine recreational flights. To understand how Tennessee's airports support the state's economy, the Tennessee Department of Transportation (TDOT) Aeronautics Division undertook the Aviation Economic Impact Study. This study determined that Tennessee's aviation system generated **220,936 jobs** and contributed **\$40 billion** in 2019 to the state's economy, accounting for **11%** of Tennessee's 2019 gross domestic product (GDP).

About Mark Anton Airport

Mark Anton Airport (2A0) is situated in East Tennessee, in the picturesque Cumberland Mountains next to the city of Dayton. Located in the fastest growing region in the state and with Dayton and the surrounding region seeing a large influx of businesses, the airport supports business connectivity into and out of the region. The airport's 5,001-foot runway is able to support this burgeoning business activity, as well as recreational users and flight training. For instance, the new Cirrus Delivery Center in Knoxville frequents the airport for flight training. The airport is also supported by two business tenants, including the Civil Air Patrol (CAP), which has 25 personnel stationed onsite. Every month, the CAP hosts a monthly breakfast that brings in up to 70 aircraft to the airport.

In order to understand the geographic reach of Mark Anton Airport, the map below shows a selection of flights that operated both into and out of the airport.

Airport Economic Impacts

Region 2 Profile

Region 2 is located in east central Tennessee and covers some of the most rapidly-growing urban areas in Tennessee. Cleveland, supported by Tennessee's newest airport, Cleveland Regional Jetport (RZR), is one of Tennessee's major manufacturing hubs. **Thirteen**

Fortune-500 manufacturing companies have a presence in Cleveland, driving economic activity for the region. To the west, Tullahoma, supported by Tullahoma Regional Airport (THA), is quickly becoming a tourism hotspot. Tullahoma Regional Airport (THA) is the closest airport to the annual Bonnaroo festival, and the airport's **jet traffic increases by 80%** during this event as **tens of thousands of visitors** attend the event. Growth in the Region is supported by its **18 general aviation** airports and its single commercial service airport, Lovell Field (CHA), in Chattanooga. Lovell Field (CHA) saw a **10 percent increase in enplanements** between 2018 and 2019. In addition to welcoming **over 345,000 visitors** in 2019, Region 2's airports generated **18,087 jobs** and contributed **\$4 billion** in 2019 to the state's economy.

ON-AIRPORT		\$703 MILLION
VISITOR SPENDING		\$296 MILLION
FREIGHT/CARGO		\$2.6 BILLION

PRODUCT (GDP)

What is Economic Impact?

The economic impacts of each airport, TDOT Region, and the state are defined by the total jobs, payroll, value added, and business revenue generated by aviation in the state.

JOBS

220,936 employed

Number of employed people, including full-time and part-time

PAYROLL

\$13 billion

Total employment compensation, including wages and other benefits (e.g., healthcare insurance payments, retirement contributions, etc.); also known as "labor income"

VALUE ADDED

\$21 billion

The economic productivity of each aviation-related business establishment, calculated as business revenue earned minus the cost of purchasing goods and services from other businesses; also reflects a company's or industry's contribution to Tennessee's GDP

BUSINESS REVENUE

\$40 billion

The incorporation of expenditures needed to administer airports, sales of goods and services by airport tenants, budget expenditures to public sector agencies located on airports, the cost of capital expenditures, and visitor spending in Tennessee's hospitality-related sectors; the term "economic impact" is also used to describe business revenues

Statewide Aviation Benefits

The statewide economic impact of Tennessee's airports consists of three major categories: On-Airport Activity, Visitor Spending, and Freight/Cargo. Together, they account for **\$40 billion** in economic impact for Tennessee.

On-Airport Activity

TOTAL OUTPUT \$12 billion

Impacts related to the activity of airport administration, business tenants, and capital improvements on airports

Visitor Spending

TOTAL OUTPUT \$9 billion

Impacts related to out-of-state visitor spending at both commercial service and general aviation airports

Freight/Cargo

TOTAL OUTPUT \$19 billion

Impacts related to air cargo operations
